- [*Keeping up to Date*](#)

General Information

The Federal Energy Regulatory Commission (FERC) regularly opens public comment periods for major decisions before the agency, including approvals needed for interstate pipelines like the Mountain Valley Pipeline Southgate and Southeast Supply Enhancement Project (SSEP). When submitting a comment to FERC, you must assign the comment to the docket number of the project you are commenting on, and then submit your comment using one of the methods listed below. The **MVP Southgate** project docket number is **CP25-60-000**. **SSEP's** project-specific docket number is **CP25-10-000**.

The following are ways to submit your comment ranked in order of most recommended method:

1. [Using the FERC website](#) (eComment or eFiling)
2. Mailing to the Federal Energy Regulatory Commission, 888 First Street, NE, Washington, DC 20426
3. Delivering by hand to Health and Human Services, 12225 Wilkins Avenue, Rockville, Maryland 20852

You can see a list of open comment periods [here](#). Please note that personal comments are always best, so adding your personal reasons on why the topic at hand is important to you is crucial.

Using the FERC Website

FERC's website gives two options for submitting comments, called eComment and eFile. Below is a walkthrough for each, starting with **eComment, which is the quickest submission method.**

Comments from individuals up to 6,000 characters long can be submitted using the eComment function (recommended): <https://ferconline.ferc.gov/QuickComment.aspx>

1. Using the above link, fill out the form required by FERC to authorize eComment - after filling this out, FERC will email you a link to finish the comment process (Note: it's best to write your comment in another document beforehand to avoid the FERC site time limits. Remember this will be public - do not put any private information into the comment)
2. Click the link in the authorization email to go to the submission page - FERC imports your information into this page, but you must still assign your comment to the necessary docket number before submitting
 - a) Under your imported information form, search for the relevant docket (CP16-10 [in example below]- please select CP25-60 for MVP Southgate or CP25-10 for the SSEP docket).
