**Take Action TODAY, Tell the Obama Admin:**  
**No Drilling Off Our Coast!**

Starting this summer, the Obama administration will begin deciding whether or not to open the Atlantic coast to the first commercial offshore drilling ever. Without strong citizen intervention, it is likely that commercial leases for offshore drilling could begin as soon as 2017.

The administration is currently taking comments on what oil and gas related activities will be permitted off our coast between the years of 2017 and 2022— You can read more about this issue [here](#) and [here](#). Will you take one minute to speak up for our coasts and sign our petition?

**Please add your name by July 31st, and help us protect America's treasured coasts.**
