**PROGRESS ENERGY FLORIDA'S SUPPLEMENTAL RESPONSE TO CITIZENS' THIRD SET
OF INTERROGATORIES TO PROGRESS ENERGY FLORIDA (No. 47)**

Progress Energy Florida, Inc., ("PEF" or the "Company"), provides this supplemental response to Office of Public Counsel's ("OPC" or "Citizens") Third Set of Interrogatories (No. 47), as follows:

INTERROGATORIES

Question 47

What are the ratepayer impacts after 2012 of completing the project on a 100% ownership basis using the current path chosen?

Supplemental Response

Subject to PEF's general objections filed on June 3, 2010, and without waiving same:

The NCRC Rates reflected are those presented in the original responses to OPC -47 which were the estimated residential rates for NCRC clause recovery only. The chart below presents estimates for Base Rates and the fuel savings impact on rates.

Estimated Residential Rates (\$/1000 KWH)												
Year	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024
Est. NCRC Rate	7.98	23.78	6.51	13.70	21.47	29.35	38.47	43.42	25.69	18.47	0.94	-
Est. Base Rate (Note 1)	-	-	3.14	3.14	4.58	5.10	5.40	5.87	28.70	46.06	67.71	67.71
Est. Rate Impact of Levy Capital Additions	7.98	23.78	9.65	16.85	26.05	34.45	43.87	49.29	54.39	64.53	68.65	67.71
Est. Fuel Savings Rate Impact (Note 2)	-	-	-	-	-	-	-	-	(7.45)	(13.84)	(26.69)	(26.85)

Note 1: Simplifying assumptions were made regarding assets placed in-service for the purposes of calculating these estimates. Base Rate estimates were calculated for the year following the date the assets were placed in-service for items going in service in December of a given year. The 2021 impact is estimated to be an increase of \$11.45 in January and \$17.25 beginning July.

Note 2: This line shows the estimated rate impact of fuel savings due to having LNP vs. an all natural gas portfolio.

Note 3: The revenue requirements for the NCRC Rate presented above reflect the Rate Management Plan as proposed in Docket 100009-EL.

Note 4: Retail sales were obtained from the January 2010 sales forecast – 20 year weather normalization.
