Toxicological Profile for Thallium

July 1992

Toxicological Profile Information

The ATSDR toxicological profile succinctly characterizes the toxicologic and adverse health effects information for the hazardous substance described here. Each peer-reviewed profile identifies and reviews the key literature that describes a hazardous substance's toxicologic properties. Other pertinent literature is also presented, but is described in less detail than the key studies. The complete list of topics covered (chapter titles) is shown at the left and in more detail further down this page.

The focus of the profile is on health and toxicologic information. Therefore, each profile begins with a **Public Health Statement** that summarizes in nontechnical language, a substance's relevant properties.

A useful two page information sheet, the **ToxFAQs™**, is also available.

Toxicological Profile Access

In order to access the ATSDR toxicological profiles' PDF files below, you must have **Adobe Acrobat Reader** .

You may download that program for free from this link to [Adobe EXIT▶](#) and then use it to access (open) the files below that are labeled as PDF files.

1. [Public Health Statement](#) 152k

- 1.1 What is this substance?
- 1.2 What happens to it when it enters the environment?
- 1.3 How might I be exposed to it?
- 1.4 How can it enter and leave my body?
- 1.5 How can it affect my health?
- 1.6 Is there a medical test to determine whether I have been exposed to it?
- 1.7 What recommendations has the federal government made to protect human health?
- 1.8 Where can I get more information?

[back to top](#)

2. [Health Effects](#) 645k

- 2.1 Introduction
- 2.2 Discussion of health effects by route of exposure
- 2.3 Toxicokinetics
- 2.4 Mechanisms of action
- 2.5 Relevance to public health
- 2.6 Biomarkers of exposure and effect
- 2.7 Interactions with other substances
- 2.8 Populations that are unusually susceptible
- 2.9 Methods for reducing toxic effects
- 2.10 Adequacy of the database

[back to top](#)

3. [Chemical and Physical Information](#) 190k

- 3.1 Chemical Identity
- 3.2 Physical and Chemical Properties

[back to top](#)

4. [Production, Import, Use, and Disposal](#) 98k

- 4.1 Production
- 4.2 Import / Export
- 4.3 Use
- 4.4 Disposal

[back to top](#)

5. Potential for Human Exposure 350k

- 5.1 Overview
- 5.2 Releases to the environment
- 5.3 Environmental fate
- 5.4 Levels monitored or estimated in the environment
- 5.5 General population and occupational exposure
- 5.6 Populations with potentially high exposure
- 5.7 Adequacy of the database

[back to top](#)

6. Analytical Methods 165k

- 6.1 Biological materials
- 6.2 Environmental samples
- 6.3 Adequacy of the database

Disclaimer

All ATSDR toxicological profile PDF files are electronic conversions from paper copy or other electronic ASCII text files. This conversion may have resulted in character translation or format errors. Users are referred to the original paper copy of the toxicological profile for the official text, figures, and tables. Original paper copies can be obtained via the directions on the [toxicological profile home page](#), which also contains other important information about the profiles.

Where can I get more information?

ATSDR can tell you where to find occupational and environmental health clinics. Their specialists can recognize, evaluate, and treat illnesses resulting from exposure to hazardous substances. You can also contact your community or state health or environmental quality department if you have any more questions or concerns.

For more information, contact:

Agency for Toxic Substances and Disease Registry
Division of Toxicology
1600 Clifton Road NE, Mailstop F-32
Atlanta, GA 30333
Phone: 1-888-42-ATSDR (1-888-422-8737)
FAX: (770)-488-4178
Email: ATSDRIC@cdc.gov
